Your Path to Growth Mindset

Is available to you

Pueyen Lee

Women in Technology Japan

(WITJ) is proud to invite a new member of the WITJ community, Pueyen Lee, to share essential insights to help cultivate your Growth Mindset and how doing so will empower you as an individual, as well as your career.

Within the Data and Technology field, Pueyen currently specializes in the emerging Data Governance area, where she plays a important role in reshaping the culture and environment in data management.

Originally from Malaysia, Pueyen lived in England for 10 years before moving to Tokyo in 2014. As a professional, Pueyen is registered as Chartered Accountant and Certified Internal Auditor.

As an individual and a parent, Pueyen strives to become a female leader in Data. Pueyen believes in leading by example and that our environment plays a big part in shaping our mindset and life-long journeys. Outside work, she devotes personal time to master key insights about mindset. She recently became a certified therapist with the intention of empowering more women and children to lead themselves with a growth mindset, grit, and a self-fulfilled life that is happy and healthy.
